

JAYSUN
RUBBER INDUSTRIES

Strength
You Can Trust.

ABOUT US:

We manufacture Rubber Products from Natural, Neoprene, Nitrile, HNBR, SBR, Silicon, Viton, Polyurethane, Hypelon, Polyacrylic, Ethylene Propylene Diene Monomer (EPDM), etc, thermoset polymers. We also manufacture products from Thermoplastic Elastomers like Soft PVC & various other grades.

*With a growing portfolio of more than **7,000 Rubber** and TPE components, we cater to diverse engineering demands with high consistency, reliability, and performance. Our state-of-the-art infrastructure, modern testing systems, advanced compounding, and experienced technical team allow us to manufacture products that meet the most demanding specifications, including performance-based materials such as TPE.*

We provide a diverse portfolio of high-precision rubber and polymer components, crafted to meet the highest standards of quality and long-term performance.

Our Ready Product Range Includes:

1. Anti Vibration Mountings (AVM).
2. O Rings &
3. Oil Seal.
4. Couplings.

Industries We Serve With advanced manufacturing capabilities and a commitment to quality, we cater to a wide spectrum of industries, including:

1. OEM Automotive Industry.
2. Agriculture Industry.
3. Pipe Industry.
4. Pumps Industry.
5. Cement Concrete Industry.

OUR MISSION

To carry out manufacturing activity with high quality operations under professional management.

To enter into newer markets Segment Wise Product Wise• Geographical Region Wise.

OUR VISION

To be one of the top ten Rubber Products Manufacturers in India by the year 2025. And to earn an iconic recognition in the Rubber Industry.

Our Products Range:

O Ring

Grommet

Diafam

Bush

Handle

Mounting

Mfg by.
